Preferred Provider Organization (PPO) Plan

A PPO plan offers the freedom to receive care from any in- or out-of-network doctor, specialist or hospital without a referral. You have a deductible to meet and once the deductible is met, coinsurance (the cost share between you and the carrier) kicks in. The types of medical services that accumulate towards your deductible are inpatient hospital stays, outpatient surgeries, labs (blood work) and x-rays (MRIs, PET scans, CT scans, etc.). Generally, if you go to the doctor, see a specialist, utilize the ER or take a prescription drug, you'll pay a copay for those specific services. Copays do not accumulate towards your deductible but they do accumulate towards your overall out-of-pocket maximum.

HDHP with HSA Plan

The plan is comprised of two components:

1. High Deductible Health Plan (HDHP)
2. Health Savings Account (HSA)

The HDHP is a high deductible health plan that provides health care benefits after the deductible has been met. All medical services, with the exception of preventive care, are paid for by you at 100%, less carrier discounts, prior to meeting your entire annual deductible. This includes routine office visits, procedures, lab work, prescription drugs, etc.

The HSA is a bank account paired with your HDHP allowing you to set aside money on a tax-free basis to pay your out-of-pocket qualified medical, dental, and vision expenses throughout the year or in the future. You own the money in your HSA account and it is yours to keep – even when you change plans or retire. The funds roll over from year to year to be used when you really need them.

You can put your own pre-tax dollars into this account for future medical expenses.

Health Savings Account (HSA)

HSA Vendor: Optum

Website: www.optum.com

Phone: 866-234-8913

You're eligible for a health savings account if:

- You are covered by a qualified high deductible health plan (HDHP)
- You are not covered by any other medical coverage that is not considered a qualified HDHP
- You are not enrolled in Medicare (Part A included)
- You are not claimed as a dependent on someone's tax return
- You are not enrolled in a Medical Flexible Spending Account (your own or your spouse's)

Advantages to having an HSA

- There's a triple tax savings benefit as contributions are not taxed going into the account, while they sit there earning interest or when they're taken out for a qualified medical expense.
- Unused funds rollover each year with no maximum on how much you can save and accumulate over time

- The account is portable so you never have to worry about losing the money in the account should you change between plans, retire or even seek employment elsewhere
- Your HSA can be viewed as a second means of savings for your retirement
- You control your healthcare spending and choose when to use your HSA dollars and when to save them
- You become a more informed participant in your healthcare and healthcare spending

Steps to using your HSA

- Go to the doctor and present your carrier ID
- Your doctor submits your medical services to the carrier to be discounted
- Your carrier adjusts the pricing to reflect the network discounted amount for your services
- The carrier generates an Explanation of Benefits (EOB) and sends it to you
- By now you've received an invoice from your doctor – make sure the EOB and invoice match
- Pay your doctor directly with pre-tax dollars from your HSA or post-tax dollars from your pocket if funds are not available

Using your HSA on qualified expenses

You can use the money in your HSA to pay for qualified medical, dental and vision expenses permitted under federal tax law.

A Step-by-Step Guide to MyBenefits Registration with MetLife

Pre-Registration

1) Upon navigation to www.metlife.com/mybenefits, you'll see the screen on the right. Enter the name of your employer or organization into the field in the upper-right corner. A drop-down menu of organizations may appear with options to choose from (if more than one match is found, select the organization you want to register and click "Next").

2) You'll be taken to a screen that asks you to select whether you would like to login or register. The interface may vary.

3) Regardless of interface fee, select "Create a New Account" or "Register Now." If you believe you have selected the wrong organization, click on the link that reads "Looking for a different Employer or association. This link will take you back to the screen where you can choose a different organization.

Registration

1) Enter your personal information: first name, last name, email address. Select the type of phone number you have (mobile or landline) and enter your US based phone number, DOB, zip code and state.

Maternity CARE

Whether you are considering having a baby or are already expecting, UMR Maternity CARE can explain how to reduce your risk of complications and prepare you to have a successful, full-term pregnancy and a healthy baby.

UMR's experienced OB/GYN nurses will help you understand your personal health risks and empower you to take action before you become pregnant. When the time arrives, our registered nurses will support you with timely prenatal education and follow-up calls, and will refer you to case management if a serious condition arises. Your CARE nurse will call you each trimester during your pregnancy and once after your baby is born.

UMR also offers two types of monthly events for members who are enrolled in or have completed the program: virtual classes and a breastfeeding support group. And members have access to certified lactation consultants.

If you are pregnant and are identified as high-risk, a CARE nurse will monitor your condition and work to reduce your claims costs throughout your pregnancy and the post-delivery period. You can self-enroll in Maternity CARE or pre-pregnancy support.

Once enrolled, you'll receive...

One-on-one phone calls with a CARE nurse who:

- Provides comprehensive pre-pregnancy and prenatal assessments
- Shares educational information before you become pregnant and throughout your pregnancy
- Sends a courtesy letter informing your physician that you're in the program

- Encourages you to call with any questions or concerns and continues to reach out each trimester and again after your delivery to see how you and your baby are doing

Guidance for your support person:

You may also choose to identify a support person who can receive an education call and electronic educational packet. The packet includes information to help them support you through your pregnancy, labor and delivery, and postpartum.

No-cost educational materials in the mail:

You can choose from a selection of high-quality books and other materials containing helpful information about pregnancy, pre-term labor, childbirth, breastfeeding and infant care.

CARE on the go:

The CARE app allows UMR to meet members where they are by connecting them to CARE nurses through their mobile device. Nurses can view individual health metrics from self-reported data or synchronized monitoring devices and are able to virtually connect with members by text or email. It's free and confidential.

No cost support:

Maternity CARE is a valuable benefit provided by your employer at no additional cost to you.

Confidential care:

UMR CARE takes confidentiality very seriously. It's important to know that UMR won't share any identifiable, personal health information with your employer. Your employer receives group information only. UMR CARE programs operate in compliance with all federal and state privacy laws.

Your first step is to enroll in the Maternity CARE program. Call 888-438-8105 to enroll.

Tips to Save Money

Preventive/Wellness Exams Covered at 100%

- Preventive care is equal to one physical exam per year per enrolled member
- Females get an annual well-woman exam covered at 100% in addition to their annual exam
- No deductible expenses apply—the exam is completely no cost to you provided it's coded as preventive

Prescription Drugs

- Ask your doctor if there's a generic version of the medication they're prescribing or you're already taking
- Take advantage of the Generic Prescription Savings Programs at major retailers
- Ask about free samples from your doctor and/or manufacturer rebates

High Cost Scans, X-Rays & Tests

- MRI, PET scans, CT scans, etc. are nearly 2/3 less costly at free-standing, in-network imaging centers than at hospitals
- Finding an in-network, free-standing imaging center can save you a substantial amount of money

Accessing Medical Care

- The ER is a costly experience for issues that aren't true emergencies. There are alternatives that can offer you quick care at a much more affordable cost. The key is finding these alternatives today when you're happy and healthy.
- Doctor's office: for symptoms that aren't extreme, call and let them know your symptoms require immediate attention
- Convenient Care Clinics: use when you don't have a primary doctor or can't get an appointment. Good for fever, sore throat/strep, coughs/congestion, sports physicals, UTIs, etc. Visit [cvs.com](https://www.cvs.com) or [walgreens.com](https://www.walgreens.com) to find a clinic near you*
- Urgent Care (UC): less costly than the ER; can treat sprains/strains, minor breaks, mild asthma, minor infections, rashes, small cuts, burns, etc.
