Out of Network Explanation						
Out of network dentists are NOT contracted with your dental insurance carrier. After you pay for the service based on your benefit plan, the insurance carrier will pay the out of network dentist the same rate they pay an in-network dentist. In most cases, the out of network dentist does not consider this as payment in full (like an in-network dentist would) and may "Balance bill" you. That is, they may ask you to pay the difference.
