

Find a Doctor – HMO Blue New England Plans; To determine whether or not a provider is within network under the HMO Blue New England Plans, you will first want to navigate to the Blue Cross “Find a Doctor” website, the link for such is: <https://member.bluecrossma.com/fad>

Once on this page, you will see the below. This is where you will want to input your provider or hospital information to verify coverage under a specific plan.

[Finding Care: learn about our other tools and resources available to you.](#)

[Talk to a Doctor Now: On-demand interactive medical professional consultations available.](#)

To get accurate results, you will want to first enter the name of the doctor or, for a list, type in “Family Medical Physician” (or the specialty in which you are looking for). Next, you will want to input the location, for this it is suggested to enter a zip code rather than a city for most accurate results. Lastly, you will want to select “HMO Blue New England” from the drop-down menu in the “Select a Network” section of the search function. From here you will click “Search”.

Upon clicking "Search", you will then see a list displayed of doctors based off your initial search criteria. You will be able to verify whether the doctor is in-network by the green check mark indicating such displayed with their information. Additionally, you can filter your search results by several subcategories ranging from those "Accepting New Patients" to the "Awards" the doctor has received.

After the list displays, if you are looking for more information on one of the providers displayed, simply click on their name from the list. From here you will then be brought to the specific information on that provider including but not limited to their NPI (National Provider Identification #), their languages in which they speak, as well as education and board certifications currently held.
