

LONG LIVE HAPPY HOMES™

We're gearing up for Open Enrollment!

Enrollment is just around the corner and 2-10 Home Buyers Warranty wants to inform you of some upcoming changes for your 2024 benefits.

Premium Changes

We've been fortunate over the last 4 years – our increases have been much lower than the average across the county.

This year our costs have increased significantly, especially for our members enrolled in our Choice and Choice Plus plans.

We pay more than 75% of the cost of medical care for our employees, which is higher than the average and will continue to do so in 2024!

Depending upon which plan you choose for 2024, premiums may go up or down, however ***any increase will be no more than \$15 per pay period for each of your enrolled family members.***

Plan Upgrade!!

We will be replacing the Choice and Choice Plus plans with Surest!

The Surest plan utilizing the Choice Plus network, which is United Healthcare's largest national network.

With Surest, you have zero deductibles and zero coinsurance. All services will be subject to a copay. The copay is based on the provider and facility you utilize. You can identify the lower copay providers easily with Surest's innovative App.

With Surest, you'll always know prior to a service what your financial responsibility is! Most employees will pay significantly less toward covered medical care than under your prior plan.

The existing HDHP and CDP plan will remain the same.

Enroll between November 28th
to December 12th!
Stay tuned for more information!
