

Westchester Medical Center

Specialty Pharmacy

Westchester Medical Center Health Network

We're pleased to announce the launch of the Westchester Medical Center Specialty Pharmacy.

A new in-network resource built to
better serve patients managing complex,
chronic, or rare conditions.

Fully integrated into the Westchester Medical Center Health Network (WMCHealth) system, our pharmacy coordinates directly with your care team to ensure safe, timely, and personalized medication support.

Conditions we support at launch:

Gastroenterology Carefully managed therapies for conditions like Crohn's disease, ulcerative colitis, and hepatitis.

Hematology Support for patients with anemia, clotting disorders, and other complex blood conditions.

Rheumatology Treatment support for autoimmune and inflammatory conditions like rheumatoid arthritis and lupus.

Infectious Diseases Comprehensive support for patients managing HIV/AIDS, including antiretroviral therapy, adherence counseling, and stigma-sensitive care.

Oncology Timely, coordinated access to specialty medications during cancer treatment.

Cardiology Treatment support for Amyloidosis, Cardiomyopathy and other conditions.

Why Refer to Us

- ▶ Direct pharmacist collaboration
- ▶ Prior auth and co-pay support
- ▶ Full-service patient onboarding
- ▶ Free home delivery

Refer a patient

Simply submit the referral through Westchester Medical Center Specialty Pharmacy. We'll handle everything from insurance to patient education.
